CS TrackSystems are an innovative range of track systems designed for a multitude of sliding doorway applications.

**CS HeavyDutyTrack**

is an ultra heavy duty extruded track system designed to take oversized or heavy doors up to a maximum of 500kg (1100lb).

This track is suitable for a wide range of commercial, industrial and residential applications such as large feature doors (as pictured) or large factory doors.

The track is supplied in a clear (natural) anodized finish, making it suitable for interior or exterior use.

Large feature door hung on CS HeavyDutyTrack.
Track & Carriage Features

Our engineers focus on constantly developing new products and refining existing ones. That’s why our products come with a number of unique features:

1. High quality, ultra heavy-duty aluminum.
2. Pre-machined mounting holes.
3. Minimal clearance means the carriages/wheels cannot jump off the track or jam.
4. M10 body made from cast stainless steel for strength and reliability.
5. Large diameter wheels with precision ground bearings make for smooth running.
6. CarriSnap™ quick release system allows the door to be removed easily from the track.

Suggested Assembly Detail

How to Order

1. Specify track length (available in lengths up to 28’)
2. Choose an M10 carriage pack (one per door) - refer to Carriage Packs page
   M10 (1100lb)
   (includes carriages, mounting plates, T-Guide, fixing screws, adjusting wrench, installation instructions and stops if required)
