**CS TrackSystems** are an innovative range of track systems designed for a multitude of sliding doorway applications.

**CS WallMountTrack** is suitable for surface sliding applications where there is enough strength in the wall to side mount a track system above an opening.

Installation is quick and easy as the track is supplied with pre-machined fixing slots. The track also comes with a pre-finished, removable aluminum fascia and end caps that neatly conceal the top of the door, track and carriage system.

The WallMount Track can be upgraded to SofStop® soft close. This is suitable for areas where quiet is required, such as bedrooms, offices and patient rooms.
Standard Features & Options

- Available as a single track set-up only, i.e. no double or triple track versions are available.
- 304 stainless steel components available for corrosive environments.
- Track can be configured to suit Bi-Parting doors.
- Fascia may be anodized or powder coated. Standard finishes: Clear or Bronze Anodized. Inquire about custom colors.

Technical Information

- Fascia Finish: See Options
- Door Thickness: 35-45mm
- Weight: Std: 240kg (500lb) SofStop: 120kg (264lb)
- Carriage Pack: M6/M8/SofStop

Our engineers focus on constantly developing new products and refining existing ones. That’s why our products come with a number of unique features:

1. **Heavy duty one-piece** extruded aluminum track.
2. Pre-machined mounting holes.
3. Fascia is removable for future servicing requirements.
4. Minimal clearance means the carriages/wheels cannot jump off the track or jam.
5. Large diameter wheels with precision ground bearings make for smooth running.
6. Radiused track reduces friction and allows dust to be pushed into the gutters so the door always slides smoothly.
7. **M8 body made from cast stainless steel for strength and reliability.** 4-wheel carriages are standard on all doors over 200lb.
8. **CarriSnap** quick release system allows the door to be removed easily from the track; no need to unscrew anything and lose door height adjustment.

Fixing Detail

- Track can be configured to suit Bi-Parting doors.
- Fascia may be anodized or powder coated. Standard finishes: Clear or Bronze Anodized. Inquire about custom colors.

**SofStop** Features & Options

- Single or Twin action (soft open/soft close) options available.
- The soft close mechanism is hidden from sight, yet remains fully serviceable.
- High quality soft close mechanism has been independently tested to 100,000 cycles.
