The dimensions shown above are recommended guidelines. The final decision on dimensions and clearances is the responsibility of the installer. Whilst all care is taken to ensure the accuracy of all information, no responsibility will be accepted for any errors or omissions.

\[
\text{Door Height} = (\text{Rough Opening Height}) - (\text{Floor Thickness}) - (3-5/16")
\]

\[
\text{Rough Opening Height} = (\text{Door Height}) + (\text{Floor Thickness}) + (3-5/16")
\]
